

COMPANY PROFILE

Masiya Wamakamba Group

About Us.

MWG Pest Control is a trusted, registered, and licensed pest control services provider, dedicated to delivering exceptional solutions to residential, commercial, and industrial clients. Our team of seasoned professionals utilizes cutting-edge technology and proven methods to eliminate pests, prevent future infestations, and provide unparalleled customer service, always prioritizing the safety of our clients, their properties, and the environment. We are a fully insured company, ensuring added protection and peace of mind for our clients. At MWG Pest Control, safety is our utmost priority. We ensure that all our treatments are carried out with the utmost care and attention to detail, minimizing risks to people, pets, and the environment. Our team is dedicated to providing safe and effective pest control solutions, prioritizing safety in every aspect of our service, from the initial assessment to the final treatment, to guarantee the safety and well-being of our clients.

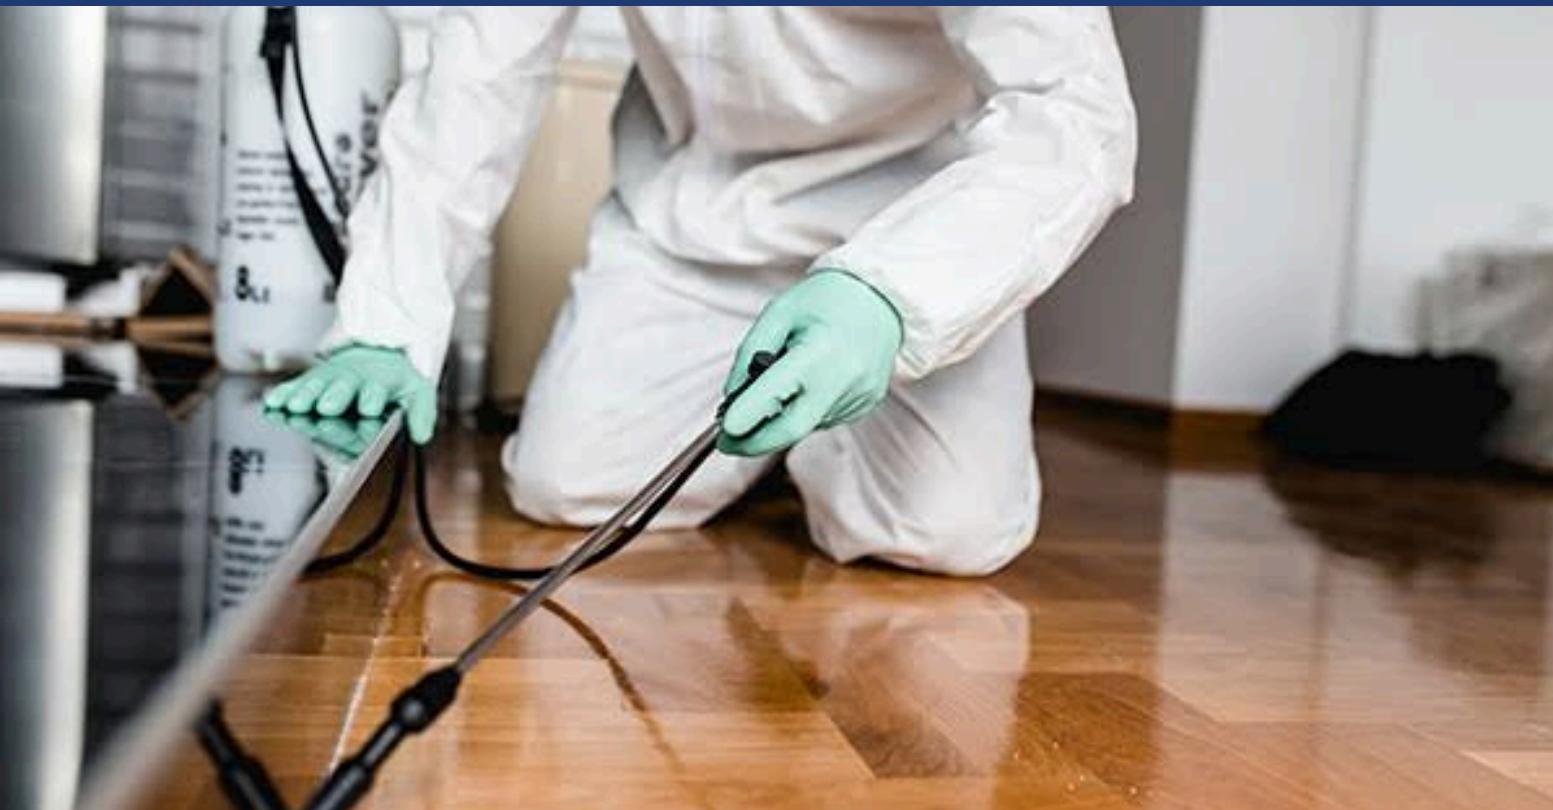

Mision & Vision

Mision

To deliver effective and efficient pest control solutions, ensuring a safe and healthy environment for our clients, while providing exceptional customer service and promoting environmental responsibility. We are committed to building long-term relationships with our clients, listening to their needs, and tailoring our services to meet their unique pest control challenges. Through our expertise, professionalism, and dedication to excellence, we aim to be the trusted partner for all pest control needs, and to make a positive impact on the communities we serve.

Vision

To be the leading provider of innovative and sustainable pest control solutions, trusted by our communities for our expertise, reliability, and commitment to a pest-free and healthy environment. We envision a future where our services not only eliminate pests, but also contribute to the wellbeing and quality of life of our clients, while promoting environmental stewardship and responsibility.

SERVICES

RATS CONTROL

MWG Pest Control detects and eliminates rats to protect public safety from diseases like leptospirosis and salmonellosis. Their expertise helps safeguard health and prevent property damage caused by these pests.

TERMITES CONTROL

MWG Pest Control detects and eliminates termite infestations to protect properties and the public from structural damage and health risks. Their approach helps preserve the integrity of buildings and structures.

ANTS AND COCKROACHES

MWG Pest Control eliminates ants and cockroaches to ensure a clean and healthy environment by preventing food contamination and disease spread. Their services help maintain hygiene and reduce pest-related risks.

WEED CONTROL

MWG Pest Control eliminates unwanted vegetation to promote healthy growth and environmental safety in gardens and landscapes. Their weed control services support a balanced and aesthetically pleasing outdoor environment.

FUMIGATION

Whole-house fumigation for severe pest infestations.

DISINFECTING AND FOGGING

Disinfecting and fogging to eliminate bacteria, viruses, and germs for homes and businesses.

PEST CONTROL FOR FOUNDATIONS AND CERTIFICATE

Foundation pest control treatments with certificates for real estate transactions.

SCHOOLS AND BUSINESS FOOD STORAGE DISINFECTING AND SPRAYING

Disinfecting and spraying for schools and businesses to eliminate bacteria, viruses, and pests in food storage.

Commitment to safety.

- We ensure exceptional quality and service through our Quality and Safety Assurance program using licensed technicians, latest technology, and effective methods guaranteed for customer satisfaction and providing a safe and healthy environment.
- We prioritize the well-being of our clients, employees, and the environment. We maintain the highest safety standards, adhering to strict emergency response and spill containment protocols to minimize risk and prevent accidents. Our technicians are trained and certified in safe product handling and application, utilizing approved, eco-friendly products. We comply with all relevant laws, regulations, and industry standards, ensuring a safe and responsible approach to pest control.
